RE: Spring Paving Project

Construction of the Spring Paving Project is anticipated to begin on Monday, April 30. The streets included in the Spring Paving Project were reviewed and approved by Council during the priority setting and budgeting process for the current fiscal year. The streets slated for repaving include:

- Conger Street from Broadway Street to Prospect Street
- Cass Street
- Haver Street
- Pine Street
- Superior Street from Center Street to Broadway Street (minor area)
- Kalamazoo Street from Michigan Avenue to Huron Street

The work will include replacement of the asphalt wearing surface, curb and gutter repairs, minor sidewalk repairs, and other minor improvements.

During construction, the streets will remain open to local traffic. Minor traffic disruptions will occur on the days that the old asphalt is removed and on the days when new asphalt is being installed. If concrete curb & gutter is being replaced at a driveway approach, the owner will be notified by the contractor or City Representative in advance.

All major work is to be completed by June 8, 2018 and final restoration is to be completed by June 22, 2018.

Questions regarding the project may be directed to Mike Dopp, City Engineer at 269-637-0776 or mdopp@south-haven.com.
