RE: Summer Paving Project

Construction of the Summer Paving Project is anticipated to begin on Monday, July 30. The streets included in the Summer Paving Project were reviewed and approved by Council during the priority setting and budgeting process for the current fiscal year. The streets slated for repaving include:

- Elkenburg Street from Center Street to Le Grange Street
- Apache Court

The work will include replacement of the asphalt wearing surface (full depth for Elkenburg St), curb and gutter repairs, minor sidewalk repairs, and other minor improvements.

During construction, the streets will remain open to local traffic. Minor traffic disruptions will occur on the days that the old asphalt is removed and on the days when new asphalt is being installed. If concrete curb & gutter is being replaced at a driveway approach, the owner will be notified by the contractor or City Representative in advance.

All major work is to be completed by August 27, 2018 and final restoration is to be completed by August 31, 2018.

Questions regarding the project may be directed to Mike Dopp, City Engineer at 269-637-0776 or mdopp@south-haven.com.
